

It all started with a small meeting and a few parents who wanted something better for their childrens' education.

“A Montessori School can't work here – we already tried that.”

We were told

WE are celebrating 10 years as a Montessori school!

And they said

“Charter School legislation will never pass in Indiana.”

We saw the need for our community's learners to have educational options aside from private schools, we wanted a school with no tuition as a barrier.

WE were the FIRST Charter School in Southern Indiana!

We wanted to become an innovative school which would support 3 years old to 18 years old. We needed an environment that reflected our dreams for our children in their learning process!

“You will never be able to build a school without a big benefactor – banks will never give you a loan.”

They told us

TWO Banks = \$10,000,000

The Dream School is a REALITY!

WHAT IS YOUR CHILD'S EDUCATION WORTH TO YOU?
